-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Quandt (USPN 3,655,354) for reasons of record in the Office Action dated 03/14/06.

### ***Response to Arguments***

3. Applicant's arguments filed 06/14/06 have been fully considered but they are not persuasive. Applicant first argues that the present claims are patentable over Quandt, because the crucible of Quandt may be impregnated with salts. This is not persuasive, since open claim language of the present claims, i.e., "comprised of," does not preclude the presence of such salts.
4. Additionally, applicant argues that the crucibles of Quandt could not be used to prepare a calcium fluoride crystal. The recitation of calcium fluoride occurs in the preamble of the claims. The portion of the claim following the preamble does not rely on the preamble for completeness and, accordingly, the preamble is not seen to distinguish over the applied prior art. Moreover, a new use of an old article does not impart patentability to the old article.
5. Applicant, in the response at page 6, second full paragraph, again asserts that the presently claimed crucibles are "free of metal salts." The claims are not so limited and, therefore, this argument is not persuasive.

Art Unit: 1775

6. Finally, applicant asserts that the present claims distinguish over Quandt because Quandt requires an element not recited in the claims, i.e., metal salts. This argument is not persuasive, however, since the open claim language of the present claims does not preclude additional components.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
